Purely Business!

The columns of a newspaper represent a cash value. No publisher can afford to give advertising "notices" free any more than a merchant can toss over his counter from gifts of dry goods or shoes. A newspaper is a legitimate business concern. Its columns are its stock in trade, and advertisements should be paid for, as matter in what part of the paper they appear.

☞ **All matter for publication must be handed in before 9 o'clock in the morning of each day.**

☞ *If you have an item of news, please call up* THE LEDGER, *Telephone 33, and send it in.*

HERE AND THERE

☞ If you have friends visiting you, or if you are going away on a visit, please drop us a note to that effect.

JEST OUR JIM.

At the school examination when we sot back in the crowd,
Watchin' of the bull proceedin's, we was gosh-almighty proud,
An' I noticed that his mother had a teardrop in her eye,
An' my own ol' gray-fringed blinkers wa'n't oncomfortably dry,
Fur the one that graduated at the head of all the school
Wasn't any goldfish swimmin' in the 'ristocratic pool—
No, there wasn't any sky-blue-blooded pedigree in him,
Fur the boy that tuk the honor cake was Jest Our Jim.

An' up yonder in the Courthouse when he pleaded his first case,
An' tho Jury got a verdick without risin' from their place,
An' tho lawyers crowded 'round him an' the Jedge came off his seat
Fur to compliment his talent, I could scarce control my feet.
Couldn't hardly keep from dancin', an' I wanted fire to whoop
At the way he put the lawyers fur the plaintiff in the soup,
But although he swum in honor an' they made a heap of him,
In the heart of his ol' daddy he was Jest Our Jim.

Then when me an' his ol' mother went to hear a famous case
An' we saw him there a-sittin' on the bench with solemn face,
An' the lawyers was a-sellin' him "Your Honor" an' the "Court,"
How we tell our bosoms swellin' an' our sassy hearts cavort!
There he sot jest like a statue, full of dignity an' law,
Jest the very grandest pieter of a man we ever saw,
An' although our hearts were swellin' full o' pride clear to the brim,
I kep' whisperin' to mother it was Jest Our Jim.

But the golden fires o' glory seemed a-blazin' in our souls
T'other night when I come singin' "Yankee Doodle" from the polls,
An' jest tickered out to mother they'd elected of our son
Fur to go an' set in Congress in the halls at Washington.
Ort to seen us hug each other an' a-kissin' jest like kids,
An' the tears overflowin' of the dam beneath our lids,
An' a-ragging an' a-waltzin' till our heads begun to swim,
An' a-tellin' of each other it was Jest Our Jim.

UNCLE SAM AND GREATER AMERICA

KENTUCKY'S INFAMY.

In a brief submitted to the Court of Appeals, State Senator CHARLES J. BRONSTON of Lexington, the well known socialistic leader, says of the principles and objects of the Goebel Election Law:

"The measure viewed from a purely political standpoint, is cowardly, corrupt and dishonest.

"Cowardly, in that it forces a great party, which has attained complete local success by persistent adherence to fixed rules of exact equality of the citizen free and equal political rights and local government, to abandon such principles and fall into advancement by the power of concentrated and arbitrary, unequal sense of fair dealing. Corrupt, in that it creates a political machine and makes it possible for a free people to be governed by a boss whose greed for official power will supplant all interest, however dear, of the individual citizen.

"Dishonest, in that, under the plausible pretense of preventing fraud, it opens so wide the avenue for unprecedented fraud as to become repulsive to the traditions of the party whose fair name the promoters of this measure seek to degrade. The intelligent and courageous manhood of this state will never submit without protest to the use of such arbitrary and autocratic power, and the political party which assumes the burden will surely be crushed under its self-destructive weight.

"May I beg to state to this honorable Court that the only hope of the citizens of this commonwealth for relief from such radical invasion of constitutional rights lies in this Court. Partisan and political majorities, when once clothed with such power, will never surrender it. If this act is judicially approved by the highest Court it will never be repealed, and only amended to increase the powers therein conferred. The majority will will effectively use it, and if perchance, the opposing minority should succeed to power, they, too, will keep and use it."

THE people of the United States appear to want the Nicaragua Canal constructed Let us agree, as a Nation, to build the canal. At the same time let us unite in demanding the passage of such a measure as will provide an American merchant marine against the time that the canal shall be opened for trade, so that the trade that is created by the coestruction of that canal shall be carried in American ships. Let the people unite in deciding "We want an American canal equal in capacity, in tonnage and in shipping, all *Quid Pro Quo.*

merican, to what the Suez is for Great tain." Of all the ships that used the Great Britain's are far in the lead—in the lead that, with the ships of her countries in one group and d of Great Britain under the other, ase latter would be the more numerous of the larger tonnage. Let us put an end to the disgrace of having it recorded year after year that one or two or perhaps none at all of our ships went through the Suez Canal, when thousands upon thousands of Britain and of other Nationalities pass through it every year laden with commerce to and from the Indies—let us end the disgrace of such a condition by duplicating in the American Nicaragua Canal a fleet of ships as large, as powerful, carrying a commerce as great, and all American, the ships, the men and the commerce. We can do it.

The people want the canal, and they also want American ships—pioneers of trade, carriers of merchandise. Let us have "the trade following the American Flag," and let us have that Flag float over none but home built ships. There is nothing to prevent us from building our own ships for our own foreign trade except Congressional indifference or short sighted opposition. Let us have an American marine and an American canal.

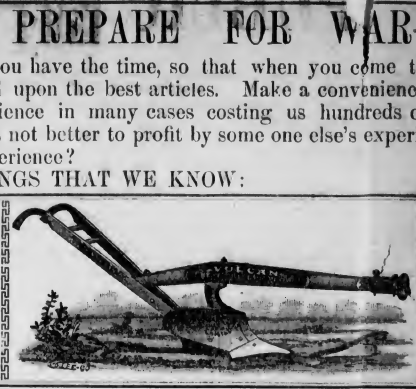
HERE ARE A FEW THINGS THAT WE KNOW:

The Pride :: OF THE WORLD IS :: The Vulcan!



We know that this is the best DISC HARROW in the world! It cost us considerable money and three years time spent fooling with other Harrows to find out this. We give you the information gratis. This Harrow has thirteen discs—seven discs in one gang and six in the other. Throw the gangs in any position you please, on either side of the hill or any angle of a cross-cut and this seventh disc is always in the middle performing its work—positively and absolutely cutting out all the center. This Harrow has no neck weight, runs light and, owing to the patent method of hanging the gangs, literally tears the ground all to pieces. We know that the VULCAN is the best Plow made. We wrestled with plow handles, trying to hold the Plow into Bracken county soil, two full years before we found this out. You need not tell us your troubles with other Plows—how hard it is to hold into land—what a mean furrow it makes—how your points break—how the bolt in the point is eternally breaking—how you have to carry the Plow around the end—we have been all along the line. But our troubles all ended when we bought a VULCAN! The Vulcan Point, Landside and Moldboard Interlock—dovetail on to the Standard. You never break a bolt on a Vulcan Plow because the interlocking device takes all the strain off the bolts! We put out last year 103 Vulcan Plows and never sold a single Moldboard. Vulcan Moldboards are ridged—the ridges are not chilled thus adding 40 per cent. to their strength. Owing to the peculiar shape of the Vulcan Landside it takes the land well and sticks. Why the Vulcan plows a fairly good furrow without the operator holding the handles!

TRY IT SOMETIME. "SEEIN' IS BELIEVIN'!"

The Vulcan handles easier than any other Plow made. Vulcan Points and interlocking devices, Moldboard, etc., are patented and you find them on no other Plow made. ☞Call and see this wonderful implement.

FARM WAGONS!

We experimented with FARM WAGONS eight years before we found one to suit us. At last we found 'way down in Alabama a factory who would build a Wagon the way we wanted it. This Wagon runs like a buggy! This Wagon is called FLORENCE after the town in which it is made. We have patent brake on this Wagon, hung from rods on both sides, thus bringing direct pressure upon each wheel in locking. We buy these Wagons in five carload lots and quote the lowest price on earth. ONLY $37.00 for Two-horse Running Gear. Having a Great Run on Chamberlain's Cough Remedy.

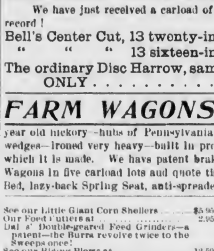
Manager Martin, of the Pierson drugstore, informs us that he is having a great run on Chamberlain's Cough Remedy. He sells five bottles of that medicine to one of any other kind, and it gives great satisfaction. In these days of la grippe there is nothing like Chamberlain's Cough Remedy to stop the cough, heal up the sore throat and lungs and give relief within a very short time. The sales are growing, and all who try it are pleased with its prompt action.—South Chicago Daily Calumet. For sale by J. Jas. Wood & Son, Druggists.



THISISIT

And it came to pass that after he had advertised his goods in THE LEDGER there came unto him great multitudes from Washington, Sardis, Murphyville, Mayslick, Germantown, Rectorville, Orangeburg, and all the region round about Maysville, even to the Lewis and Fleming county line, and did buy of him. And when his competitors saw it they marveled among themselves, saying: "How be it that this man is busy while we loaf about our doors?" And he spake unto them, saying: "Verily, verily, I say unto you in this fast age of push and rustle it is easier for a camel to enter the eye of a needle than it is for a business man to flourish in Maysville without advertising."

A CROOKED CLERK

Al. J. Wagenman, of the Court of Criminal Correction, of St. Louis, is Missing.

FRIENDS FEAR HE HAS KILLED HIMSELF

He Confessed to a Subversion of Witness and Jurors' Fees to the Amount of $30,000.

Ever Since the Proposition to Institute a Lexow Committee and Investigate the Affairs of the City Wagenman Seemed Downcast.

ST. LOUIS, Mo., Jan. 20.—Al J. Wagenman, clerk of the court of criminal correction, has disappeared and it is said by his intimate friends that he has confessed to a subversion of witnesses' and jurors' fees to the amount of $30,000. Thursday night he is missing and his friends fear he has committed suicide. Wagenman has filled one term as clerk of the court of criminal correction and was reelected to the office last fall. Ever since the proposition to institute a Lexow committee and investigate the city affairs of St. Louis was made some weeks ago Wagenman's friends have noticed that he seemed downcast and depressed. A number of them now claim he was seen at noon but disappeared without mentioning the falsity or truth of the rumor. Since then, as the rumor became more general and his friends the more alarmed, the most diligent search has failed to find a trace of him. His home has been constantly watched since noon, but he has not appeared about the place. His family was at home and his wife in tears, but she would say nothing. At 6 o'clock Thursday evening she locked up the house and went to her mother's, in another part of the city. At midnight Thursday night Wagenman's friends, after a fruitless search, became convinced that he had carried out his threat and committed suicide and a systematic search of the hotels was begun.

To his friends Wagenman said he feared the result of an investigation into the affairs of his office, as a discrepancy would be discovered and he would be ruined. To his more intimate friends he said that should he be discovered he would commit suicide. A prominent city official, whose name is withheld at his request, Thursday night said: "Last Saturday night I conversed with Wagenman regarding his affairs. He was greatly depressed and said he was in a bad fix. Finally he broke down and confessed to me that for the period of time he had been in office he had raised jurors' fees, and after paying the jurors the amounts due them had pocketed the balance and had also taken witnesses' fees until the amount had reached about $30,000, but the exact amount he did not know himself. He said that he had made no record of the amounts taken and they would not show up on his books.

"Wagenman went on to tell me that he had loaned the larger part of the money taken and had personally had the use of very little of it.

"If the Lexow committee discovers me I will commit suicide' and he pulled a bottle of morphine from his pocket significantly."

The rumor was circulated about the city early Thursday that Wagenman had taken a large sum of money from the funds of his office.

BLOOD SPILLED IN A RIOT.

Desperate Fight Between Barkeepers and Waiters and Several Negro Soldiers in a Chattanooga Saloon.

CHATTANOOGA, Tenn., Jan. 20.—A bloody riot occurred Thursday night in a Negro saloon between the barkeepers and waiters and several Negro soldiers of the 8th United States volunteer Infantry, now in camp at Chickamauga. A quarrel arose between one of the soldiers and a waiter over a matter of change, when the soldier pulled a pistol and fired at the waiter. The barkeeper and several others in the saloon opened fire on the soldiers and as a result Sergt. J. L. Williams, clerk of Company I, was shot in the abodomen; John Reed, private, Company F, was shot in the thigh and through the chest, and Louis Brown, the barkeeper, was shot twice through the lungs and will die. Sergt. Williams wound is regarded as fatal.

Uxoricide and Suicide.

SEATTLE, Wash., Jan. 20.—David Williams, ex-surveyor of Kitsap county, shot and killed his wife and then committed suicide Thursday afternoon, at his home, near Silverdale. The only cause that can be assigned is insanity. In taking his own life Williams shot himself three times with a shotgun. Two hours elapsed between the first and third shots.

COLUMBUS, O., Jan. 20.—Mr. E. J. Miller, collector of customs at this port, and ex-secretary of the Ohio Republican league, announced Thursday that he was not a candidate for president of league.

ACTS OF VIOLENCE

Former Capt. Gen. Castellanos, of Cuba, Makes Serious Complaint to Brooke.

EX-SPANISH VOLUNTEERS MURDERED.

Eight Such Individuals Have Been Assassinated in the Districts of Ranchuelo and Esperanza.

Like Deeds Reputed to Have Been Committed at Sagua Jaya—Prompt Measures Will Be Taken to Punish the Guilty.

HAVANA, Jan. 20.—Gen. Jiminez Castellanos, former captain general of Cuba, has complained to Gov. Gen. Brooke that the Cubans in the province of Santa Clara are murdering Spanish ex-volunteers. He says that eight have been killed in one week.

A dispatch from Castellanos who is now at Cienfuegos runs as follows:

"Your Excellency: I have received several communications announcing assaults and acts of violence committed in various towns upon persons who, during the late separatist war, served in the Spanish guerrilla and irregular forces. It is reported likewise that during the last week eight such individuals have been assassinated in the municipal districts of Ranchuelo and Esperanza, in this province, and that like deeds have been committed at Sagua Jaya.

"Knowing your just and noble intentions, I have the honor to call your attention to the above and to beg that you will take suitable measures to punish the guilty and to prevent the recurrence of similar acts in the future.

"I am, with greatest respect,

"CASTELLANOS."

The governor general, replying, said he had referred the matter to Maj. Gen. John C. Bates, military governor of the department of Santa Clara "with directions that prompt measures he taken to punish the guilty and prevent the recurrence of similar acts."

ALL HOPE ABANDONED.

It is Thought the Party on Board the Yacht Paul Jones Will Never Be Seen Alive.

MOBILE, Ala., Jan. 20.—Messrs. Taggart and Jones have practically abandoned the hope of ever seeing the party on board the yacht Paul Jones alive. The finding of a telephone by a trapper near the mouth of the Mississippi and the identification of it from a description as a part of the fittings of the yacht and the finding of two trunks washed ashore, containing clothing belonging to Miss Florence Taggart, has convinced them that the yacht met with disaster. It is barely possible that the party have survived and are in the Louisiana marshes, near Bird island, and the engineers' steamer Maud, with Taggart and Jones on board, started to the marshes Thursday night at 8 o'clock.

The waters, inlets and sounds all along the coast of Horn, Ship, Petit Bois and Chandeleur islands were thoroughly explored Thursday and nothing whatever found. The yacht bed not at any time touched at Chandeleur island.

The opinion of all is that the disaster happened not many hours after the yacht left the mouth of the Mississippi.

THE LAWTON CARNATION.

The Far-Famed Flower Has Been Sold for $30,000—It Will Blossom in the Public Garden in Boston.

BOSTON, Mass., Jan. 20.—The far-famed Lawson carnation has been sold for $30,000. The purchaser is Thomas F. Lawson, a financier well known in this city and New York, and in honor of whose wife the wonderful plant was named.

Mr. Calvin, who bred the flower, announces that he has accepted the offer made by Mr. Lawson, and that in the future the flower will blossom solely for the public gardens of the city of Boston, that being one of the conditions of the sale. When the beauty of the carnation first became know, Harlow N. Higinbotham, the Chicago millionaire, offered $6,000 for the plant. A little later a New York florist offered $15,000 for the flower.

SAMOAN TROUBLE

The Crack Cruiser Philadelphia, Adm. Kautz's Flagship, Ordered to Apia.

THREE BRITISH SHIPS ORDERED THERE

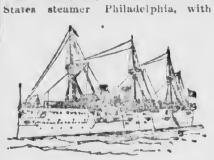
Mataafa Was Backed by Germany's Officials in His Bloody Recapture of the Throne.

England and the United States, Aroused by the Revolutionary Acts of the German Consul, Threw Him Out Into the Street.

WASHINGTON, Jan. 20.—The navy department has prepared orders for the cruiser Philadelphia to proceed to Samoa at once to represent the United States interests there. The Philadelphia is due at San Diego next Sunday, from Acapulco, meanwhile, if any vessel more quickly available can be found, one of Dewey's fleet, for instance, it will be ordered at once to Samoa to answer the urgent appeal of the United States consul there. The commander of the Philadelphia will act in conformity with the instructions of the United States consul so far as those instructions are in line with the treaty of Berlin, which the United States contends must be literally enforced until amended. It would take the Philadelphia about 16 days to make the run from San Diego to Apia, touching at Honolulu for coal.

One resource open to the navy department is to send the Oregon to Samoa. She left Callao on the 11th inst., and should reach Honolulu about the 6th of February, where she can be intercepted with orders sent by the dispatch boat Iroquois, now at San Francisco. The big battle ship Iowa is due at San Francisco just about the same date that the Oregon is due at Honolulu.

SAN DIEGO, Cal., Jan. 19.—The United States steamer Philadelphia, with



United States Cruiser Philadelphia.

Adm. Kautz on board, arrived Thursday morning from Acapulco. All well.

Adm. Kautz is well known in Ohio. He is a native of Georgetown, Brown county.

LONDON, Jan. 19.—A special dispatch from Auckland, N. Z., says the British and American consuls were compelled to force the doors of the supreme court of Apia, Samoa, in which the German consul had established himself, and to push him into the street. All parties at Apia, the special dispatch continues, unite in condemning the German consul for the fighting which has taken place between the rival kings.

It is pointed out that, in violation of all agreements, the consul accompanied Mataafa's forces when the claimant invaded the town and encouraged the opposition to Malletoa Tanus. When the British and American consuls were informed as to the situation they adjourned the court and locked the building. The German consul then demanded the keys, which were refused him. He then broke open the doors, removed the locks and replaced them with others.

He afterward brought the German municipal president into the chamber and the latter went upon the balcony and shouted to the British and American marines assembled on the square: "I am the supreme court. I am the chief justice." The crowd replied with jeers, and the British consul demanded the keys of the building, which were refused. A Scotchman named Mackie thereupon climbed on top of the building and hoisted the Samoan flag, while the British and American consuls and a number of marines invaded the building, forced the doors open and pushed the German consul into the street. Then the two consuls formally and legally, according to the special dispatch, opened the court and issued a warning against any further interference with its jurisdiction, threatening to arrest and imprison any one attempting to do so. Matters, the dispatch concludes, are now quiet and the German consul remains in his consulate.

Colliery Works Shut Down.

HAZELTON, Pa., Jan. 20.—On account of a threatened strike of the carpenter force at the Honeybrook colliery of the Lehigh and Wilkesbarre Coal Co., because of a wage disagreement, all the works at Audenried and Honeybrook were shut down Thursday, throwing 2,500 men out of employment.

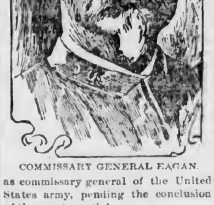
Nominated for United States Senator.

CHARLESTON, W. Va., Jan. 20.—The republican senatorial caucus Thursday night on the fifth ballot stood: Scott, 24; Atkinson, 18; scattering, 9. Scott needed but one more vote to nominate and nomination was conceded to him. Three republican members refused to enter the caucus or abide by the caucus decree.

RELIEVED OF HIS COMMAND.

Gen. Eagan (Not Ess) That He Will Be Court-Martialed and His Office Put in Charge of Col. Davis.

WASHINGTON, Jan. 20.—Gen. Eagan was served with legal notice of the ordering of a court-martial for his trial just before the close of office hours Thursday. This notice was delivered by the messenger of the adjutant general in the usual course and had the effect to relieve Gen. Eagan from duty



COMMISSARY GENERAL EAGAN.

as commissary general of the United States army, pending the conclusion of the court-martial.

The office was placed in charge of Lieut. Col. George B. Davis who has been on duty there for some time as assistant to Gen. Eagan.

It was said at the war department that the text of the charges and specifications upon which Gen. Eagan is to be tried will not be made public by the department, but will be placed in the hands of the judge advocate of the court-martial, Col. Davis, and the court itself may give them publicity.

PROTECTED CRUISER NEWARK.

Ordered to Leave New York for the Purpose to Take the Place of the Philadelphia on the Pacific Station.

WASHINGTON, Jan. 20.—Orders have been sent from the navy department to have the cruiser Newark start with dispatches from the New York navy yard for the Pacific station via the straits of Magellan. The Newark is a powerful protected cruiser of about the same type and power as the Philadelphia, whose place she will take on the station, the Philadelphia going to Samoa. The latter vessel is now at San Diego, Cal., and will not be ordered north to Mare island, but to save time will take on a full supply of coal at San Diego and will start at once for Samoa.

AFTER THE TAHITI TRADE.

France Will Establish a Trans-Pacific Line of Steamers Between San Francisco and Tahiti.

SAN FRANCISCO, Jan. 20.—F. S. Doty, French consul to Tahiti, is in this city making arrangements for the establishment of a trans-Pacific line of steamships to ply between San Francisco and Tahiti. The French government is backing the scheme and it is understood the government is taking this step to counteract the increasing prestige of the British in the Tahiti trade, most of which is carried on between Tahiti and Australia in British bottoms. Three large steamers have already been purchased for the new line in New York. The new line will be in operation about March 1.

THE OAT MEAL TRUST.

A Deal That Involves an Entire Change in the Management of the American Cereal Co. of Akron.

AKRON, O., Jan. 20.—The details of a deal that involves an entire change in the management of the American Cereal Co., or oat meal trust, leaked out Thursday. Within the past week 12,000 shares of the stock of the American Cereal Co., representing $1,200,000, have been transferred to new owners. The new owners are Myron T. Herrick and James Pardee and a few of their friends of Cleveland, and J. R. Nutt and Will Christy, of this city. As the outstanding stock of the company is $1,341,700, this purchase does not represent a controlling interest, but it represents a balance of power.

River and Harbor Bill.

WASHINGTON, Jan. 20.—The river and harbor bill is approaching completion and will probably be given to the public on Saturday or Monday. The members of the committee are guarding their work with unusual secrecy to prevent premature publication of the important items and have thus far been successful. The amount carried by the bill will be about $15,000,000.

Lee's Birthday Celebrated at Memphis.

MEMPHIS, Tenn., Jan. 20.—The confederate veterans of western Tennessee celebrated Gen. Lee's birthday Thursday night with a supper and dancing the southern cross. Business houses were not closed Thursday.

Favor the Ratification of the Treaty.

SPRINGFIELD, Ill., Jan. 20.—The house Thursday evening adopted a resolution requesting the Illinois senators to work for the ratification of the treaty with Spain.

THE EXCELLENCE OF SYRUP OF FIGS is due not only to the originality and simplicity of the combination, but also to the care and skill with which it is manufactured by scientific processes known to the CALIFORNIA FIG SYRUP CO. only, and we wish to impress upon all the importance of purchasing the true and original remedy. A Matter of Convenience.

It is the small thing that counts in the run, and when the run is as long as that of the "Pacific Coast Limited," that is, from St. Louis to Los Angeles and San Francisco, the small things that contribute to the comfort of the passenger are of great importance.

The Pacific Coast Limited is a palatial train, solid vestibuled, to California points, running semi weekly, leaving St. Louis every Tuesday and Saturday at 10:30 p. m., and reaching California the third day out.

The equipment is the surpassing thing, entirely new, and consists of composite car, with barber-shop, bath room, buffet, and observation, reading and smoking room, ladies' private compartment and observation car, Pullman ten-section double drawing-room sleeping cars, and a most superior dining car. Meals are served a la carte, which means that inclination limits expense in this matter.

To answer questions is really no trouble at all, so address your inquiries to A. A. Gallagher, District Passenger Agent, 408 Vine street, Cincinnati, O., and receive a descriptive book of the train.

Direct Route Steamer Philadelphia to the East and West.

Passengers going to any point East or West, and desiring a quick and comfortable trip, should take the Baltimore and Ohio Southwestern Railway. It is the only line operating its own through trains between St. Louis, Springfield, Penn, Vincennes, Louisville, Cincinnati and New York via Washington, D. C., Baltimore and Philadelphia.

It also has the enviable reputation for speed, comfort and safety and the regularity of its trains is proverbial with the traveling public. The traveler over the B. and O. is permitted to catch glimpses of the greatest scenery in America. Riding on solidly vestibuled palace trains, you see a photographer's paradise, the somber Allegheny Mountains, the beautiful Shenandoah River, the historic Potomac, and the valley of the Virginias.

The "Royal Blue Service" consists of the most magnificently furnished Pullman drawing-room sleepers, and luxuriously appointed dining cars operated by this company. Meals are served a la carte West of Grafton, and table d'hote East of that point. The coaches are all lighted with Pintsch gas, and have the latest conveniencies, including the most comfortably designed smoking compartments and lavatories. All trains of this line connect in the Union Depots with those for points in above named territory.

The B. and O. S. W. is a favorite route with the large commercial men now traveling between New York and the West.

Pacific Coast Limited Between St. Louis and Colorado.

Commencing November 1st and continuing thereafter during the season the Iron Mountain Route in connection with the Texas and Pacific and Southern Pacific Railways (the True Southern Route) will inaugurate their elegant through service to the Pacific Coast, which trials proved such a great success last season. The train consists of Composite Car, containing reading, writing and smoking room, buffet, barber-shop and bath room; Compartment Car containing seven private compartments and double drawing-rooms; two or more sleeping cars containing twelve sections, staterooms and drawing-rooms; Dining Car in which all meals are served a la carte. The equipment used is of the most modern and improved Pullman pattern, vestibule throughout, heated by steam and lighted Pintsch gas. Entirely fireless train and for fireless travel exclusively. This train will leave St. Louis every Tuesday and Saturday at 10:30 p. m., arriving Los Angeles every Friday and Tuesday at 4 p. m. and San Francisco every Saturday and Wednesday at 11 a. m. Less than three days to California. In addition to the above service a weekly tourist car will be run between St. Louis and California via the above route, leaving St. Louis every Friday morning. These tourist cars are available to holders of second class tickets. This route is recognized by the traveling public is the ideal winter way to the Italy of America and her sub-kisard valleys. No high altitudes and free from ice and snow. Space in sleeping cars reserved on application. For rates, time cards and further particulars address A. A. The Galveston News says the Government has issued a document which will be carefully scanned by a large portion of the population of the United States.

The News has not received a copy of it, but The Memphis Commercial Appeal says it contains a map printed in colors which shows the soil most favorable to the growth of bachelors and spinsters, and it is full of valuable information for both of these classes.

The foll wing table shows the number of bachelors and old maids in the different states and territories:

	Bachelors.	Spinsters.
Alabama	77,750	55,305
Arizona	15,638	1,321

Wyoming	16,162	1,478
Totals for U. S	5,427,767	3,224,494

The table shows that there are more bachelors than spinsters in every state in the Union except California, where, strange to say, there are nearly three spinsters to every bachelor. In Texas it seems there are 101,453 bachelors to 52,704 spinsters.

The Commercial Appeal says, there has been a general impression that the unmarried women of the country greatly outnumber the unmarried men, and that in consequence a large number of women were doomed to isolation, so to speak.

When the marriageable male population learns that there are 2,000,000 more bachelors than old maids the matrimonial market ought to liven up.

THEY KILL A FINE DOG

Thread Worms Found in the Heart of a St. Bernard.

Theory That Mosquitoes Had Injected Into the Dog's Blood the Eggs —A Most Remarkable Case.

A case which is unusual and of great interest to medical science has developed out of the death of a valuable St. Bernard dog owned by Robert Cummings, of 308 Mount Prospect avenue, Newark, N. J. According to veterinarians who performed an autopsy the dog was killed by mosquitoes. In his heart was a nest of threadworms, which caused death by clogging one of the valves. These worms, the doctors say, came from mosquito eggs, which were either injected into the blood by the insect itself or taken into the system when the dog was lapping stagnant water from some stagnant pool.

Mr. Cummings had the autopsy performed because he thought the dog had been poisoned. No trace of poison was found, and the veterinarians were puzzled until Dr. Glennon opened the heart. How the worms made their way there he does not know, but he is inclined to the belief that they traveled around the system in the blood, finally lodging in the heart. Carefully removing each worm separately, the doctor found that there were 27 of them. One was 22 inches long, while its width was no greater than that of a thread. If none of the works of veterinary writers, Dr. Glennon says, is there mentioned a greater length than 15 inches, and these works cover all the known cases of threadworms in America and Europe. So rare, in fact, is the threadworm that its presence in the system is mentioned only in the lastest works.

"According to Prof. Manson," says Dr. Glennon, "mosquitoes infect the embryo of the threadwarm along with the human blood. From the mosquito's stomach the worm penetrates into the chest cavity, where its migration ceases, and it goes through six stages of development. The female mosquito lays its eggs and goes to die in the water. Then the worms travel through the tegmentary skeleton and swim freely in the water. Man or animal may thus become infected in two ways—through the sting of the mosquito containing the worms, or through the infection of water holding the embryo of the parasites in suspension."

SAM JONES ON KISSING.

Revivalist in His Sermon Expresses His Sympathy for Lieut. Hobson.

Rev. Sam Jones, the evangelist, preached in the First Baptist church at Atlanta, Ga., the other night to a great crowd from the text: "He not overcome with evil, but overcome evil with good." He referred to Dewey's victory at Manila, Schley's at Santiago, the heroism of Wheeler, Roosevelt and others, and to Hobson sinking the Merrimac. He said:

"The newspapers may decry Hobson and speak evil of him, but he has the profound sympathy of my heart. Why, to kiss everything that comes along, from the old maid with moss on her lip to the gay widow; to kiss the old sister whose nose and chin are meeting; to kiss the good, bad and indifferent! Gentlemen, I like kissing, but I want to pick the time, place and case. Poor Hobson! He needs the prayers of the church and the sympathy of his comrades."

FIND MANY SKELETONS.

Great Pile of Human Bones Is Unearthed by Workmen in Richmond, Va.

City employes at Richmond, Va., the other day dug a trench in the center of Fifth street near the almshouse and in what now is a populous district. At a distance of two feet they struck a large deposit of human bones. The skeletons were packed close together, as if buried in one large grave. Dark stains and shapes in the earth show where coffins had once existed.

About 200 skeletons were unearthed in a trench seven feet wide. No digging was done on either side and the extent of the burial place is not known. An old citizen suggests that the remains are those of victims of a cholera epidemic in 1840, when the locality where they are buried was waste land. The street grade where the bodies were found has been lowered several feet in late years. No soldiers were buried there during the civil war.

CORSET STEEL SAVES HER LIFE

Deflects a Rifle Bullet from a Chicago Woman's Heart—Occurs at Atlanta, Ga.

Mrs. C. W. Phillips, of Chicago, who is visiting the home of Mrs. Milton Dargan, in the suburb of West End, Atlanta, Ga., owes her life to a steel corset stay. Mrs. Phillips was preparing to leave West End for the city, and was awaiting a car, when she felt a severe shock over her heart, and looking to the sidewalk, found a rifle bullet which seemed to have glanced off her body. Fearful lest she might have sustained a wound, Mrs. Phillips visited a doctor's office, where, after an examination, she was assured that she was unhurt, but that if the steel corset stay had not deflected the bullet it would have penetrated her heart. Mrs. Phillips saw a young man standing near with a parlor rifle, and thinks he was responsible for the deed, though he denies it. The bullet found on the sidewalk fits his cartridge and he will probably be arrested and charged with reckless shooting.
